1. This is a Civil Application for review of my order dated 3.2.2004. The principal point which is raised is that the applicant is a transferee-company in whose favour the management was transferred under Section 22FF in the year 2001 and therefore, they will not liable to pay any amount to the respondent no.1. This cannot be a ground for review of my order dated 3.2.2004 which was admittedly passed after hearing both sides. There is no ground made out for review. Hence, Civil application is rejected.
